## Core Objectives

- Provide **affordable housing** to families in need.
- Improve **living conditions** and promote **social inclusion**.
- Support **local economies** through construction-related employment.
- Ensure **scalable and replicable** design models for rapid deployment. Use of simple, cost-effective materials (e.g., concrete blocks, fiber cement roofing, ceramic tiles). Standardized construction allows for large-scale development and easy replication. Homes are built in organized, aligned rows, forming entire neighborhoods with essential infrastructure (roads, sidewalks, green areas).
